Marina Scheffer

Growth & Acquisition Specialist · Independent Contractor

Hands-on growth marketer with 10+ years across consumer health, e-commerce, education and B2B tech. I run **acquisition experiments end to end**: the hypothesis, the ads and creative brief, the landing page, the emails, the tracking, and the read on what happened downstream. I build **my own AI workflows** in Claude Code (funnel pulls from the ad and CRM APIs, live dashboards, scored test boards), so tests launch fast and get judged on real conversion.
